Miniature Line Voltage Cove Fixture.

MODA MINI COVE GLOWDIM INTERIOR is an award winning, patented, miniature line voltage cove lighting system. MODA GLOWDIM TECHNOLOGY enabled fixtures when wired to a 0-10V dimmer to transition at 100% from 2700K down to 1800K, or 3000K down to 2200K, when dimmed. Generally called “Dim to Warm” this feature strongly resembles incandescent illumination and transforms restaurants, bars and any hospitality location creating moods and warm environments. GLOWDIM utilizes MODA’s high standard for perfect and precise illumination, with custom firmware programmed onto our microprocessors.

GLOWDIM is much more than “Dim to Warm”. Fixtures that are called Dim to Warm all behave differently. Some can dim and turn orange. Some do not even dim much. Others you can see the transition steps. The majority just do a color adjustment and can only dim as low as 10%. This creates a flash effect when they are turned on. GLOWDIM does exactly what the name says. The MODA Microprocessor makes thousands of calculations so that the fixture gradually reduces its CCT and decreases its intensity creating a smooth dim from incandescent illumination down to true low intensity candle light. It is this reason we called this technology MODA GLOWDIM TECHNOLOGY and probably why it won the prestigious Product Innovation Award (PIA) 2017 for components and Light Sources.

Unlike other fixtures which are much larger in physical size, MINI COVE utilizes the latest Advanced MODA Design and Electronic Engineering, ensuring fixtures are cool to the touch. This is achieved by designing a forward thinking fixture with intelligent driver technology and by under driving the most advanced LEDs in the World. Thus creating a fixture which is so cool it can be held after days of illumination. The L70 (longevity) of the fixture is extended and phosphor degradation kept to a minimum.

The Onboard American Microprocessor, programmed by our MODA Software Division with new Advanced Firmware ensures MINI COVE delivers smooth, no noise, flicker free and synchronized GLOWDIM dimming down to 0%. The actual dimming minimum value is dependent upon the dimmer selected. Unlike other fixtures in the marketplace there is no need to purchase additional adapters, converters, dimming boxes or control modules, just use conventional 0-10V wiring direct from the dimmer to create a powerful and dynamic lighting system, saving time and money. Link any combination of 1ft or 4ft fixtures and every fixture will dim to warm together, smoothly, synchronized from 100% to 0%. With no minimum run lengths required, just one 1ft fixture will dim seamlessly.

With MINI COVE the installer is able to achieve long single runs of up to 160 feet decreasing the number of wiring circuits required in an installation. Another step forward in this category of small sized fixtures is the Universal power input. We designed a small MODA Micro Driver specific for MINI COVE enabling it to accept 100-277V AC 50/60Hz, thus decreasing the number of SKU’s needed to be held by any of our Worldwide distributors and giving the installer a choice of power inputs from one fixture.

With the ability to mix our own phosphors we are able to make a revolutionary new standard for MODA offering a High Color Rendering Index of 96-98 with LEDs centered on The Planckian Locus for superior illumination. R1-R15 tested to TM30-15 with values in excess of 90, creating beautiful cove illumination. Single binning means every fixture will have the same CCT - something that MODA has been doing since 2006. A specialized curved polymer optical lens combined with a cleverly designed Light Chamber delivers a light bending, smooth 200 degree beam pattern perfect for cove installations with no color over angle, no striations, inter locking fields of light and no dark spots.

The fixture incorporates an integral, patented, toolless self-locking bracket which slides into any position and turns 170 degrees. Built-in male & female connectors with thumb latch connections for fast installation time. Lightweight aluminum construction for durability and excellent thermal characteristics. Quality American Made electronic components. Available in 1ft and 4ft sections.

Tested by Intertek to UL1598 for use in USA & Canada. CE Approved. WEE. RoHS Compliant. TM-30-15 Tested. US Patent No. D787,112 and D783,890.

Product Innovation Award (PIA) 2017 for Components and Light Sources. Product Innovation Award (PIA) Winner 2016 for Best Luminaire. LFI Innovation Award 2017 Finalist for Dynamic Color, Theatrical, Cove, Strips and Tape. Lux Award Commended for Interior Product of the Year 2016. Darc Awards Finalist for Best Architectural Lighting Product - Interior Luminaires 2016. International Design Excellence Award for Innovative Product Design Finalist 2016.

Designed & Developed by MODA LIGHT in Las Vegas, USA.

MODA MINI COVE MOUNTING TRACK

Mounting Mini Cove.

Allows users to install Moda Mini Cove fixtures in a continuous linear position. Moda Mini Cove Mounting Tracks come packaged in 5 pieces of 4ft sections to create a continuous run of 20ft.

Options

Finish	G - Gray
Length	4ft - 4' Sections
Quantity	5 Pieces (20ft)

Physical

Applications	Cove, Accent
Construction	Polycarbonate

MODA MINI COVE LOUVRES ASYMMETRIC

Asymmetric Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing applications without causing significant light loss. For four foot fixtures use four of these louvres.

Options

Finish	B - BLACK
Length	1ft

Physical

Applications	Cove, Accent, Graze
Construction	ABS

MODA MINI COVE LOUVRES SYMMETRIC

Symmetric Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing applications without causing significant light loss. For four foot fixtures use four of these louvres.

Options

Finish	B - BLACK
Length	1ft

Physical

Applications	Cove, Accent, Graze
Construction	ABS

MODA MINI COVE LOUVRES HONEYCOMB

Honeycomb Mini Cove.

Provides light control and cutoff of glare for cove and wall grazing semi direct view applications. For four foot fixtures use four of these louvres.

Options

Finish	B - BLACK
Length	1ft

Physical

Applications	Cove, Accent, Graze
Construction	ABS
