

modaLIGHT®

INSTALLATION

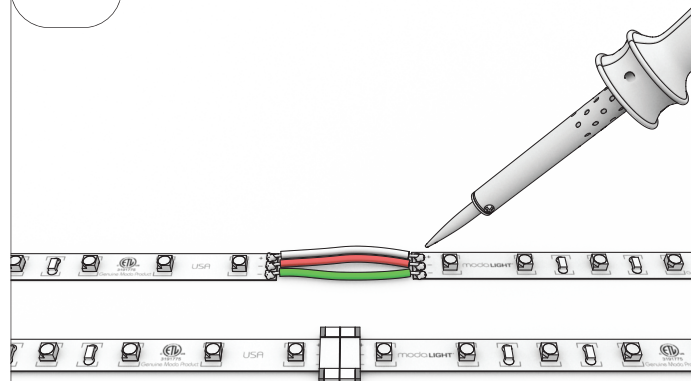

• FUSIONFLEX • SUPER FUSIONFLEX

1

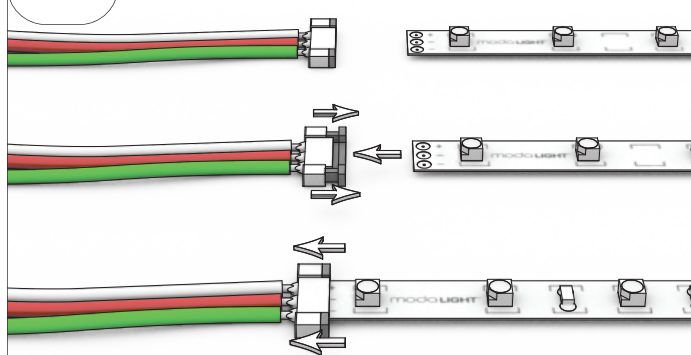

Field cuttable at designated points

2

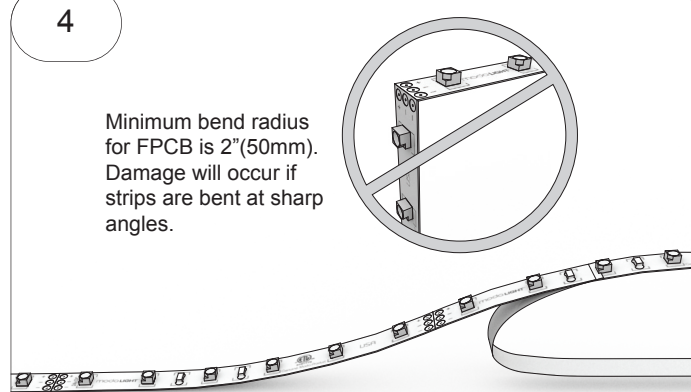

Choose desired connection type

3

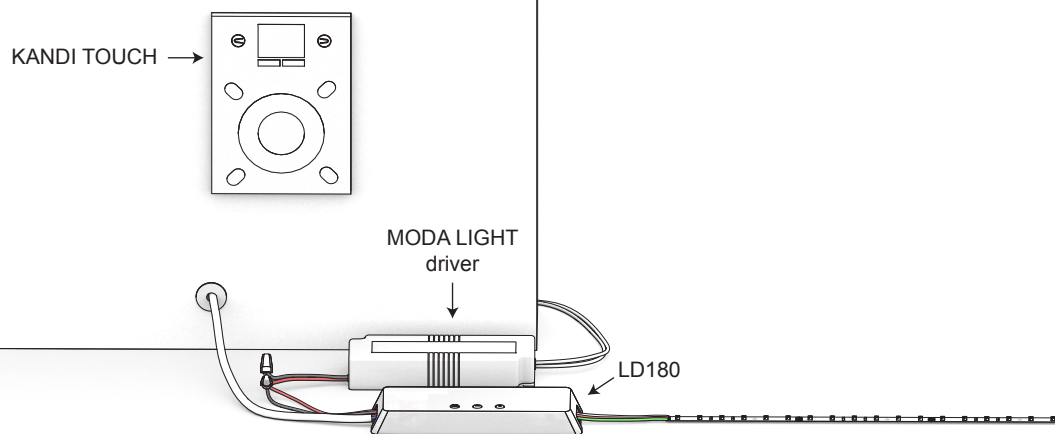

Slide tension clip forward and insert FPCB into opening ensuring positive sides match then slide tension clip back ensuring a secure connection between clip and FPCB

4

Remove paper backing from 3M self adhesive backing and apply to smooth, clean surface

5

Ensure all hardware is installed to local and national code in a suitable enclosure and then apply power

All MODA LIGHT products should be installed by a Licensed Electrician to local & national code. Do not modify, adapt or cut any MODA LIGHT components, plugs or accessories. Any modifications will void the warranty and may create a potential safety hazard. Do not put on the same circuit as inductive loads. Incorrect wiring will result in irreparable permanent damage to the LEDs and fixture. MODA LIGHT tests all products before shipping, and will not replace items that have been destroyed by incorrect wiring or handling. Ensure electrical circuit is switched off before wiring. See MODA LIGHT terms and conditions for product limited warranty.
